

HOMEWORK INSTRUCTIONS 2015—2016

Dear Candidates:

Your materials consist of several parts:

1. Course Outlines [Procedure, Evidence, Professional Responsibility, & Federal Taxation]
2. Reading Assignments with Code Section References
3. Index
4. Topic text with Example Questions
5. Homework Questions with Homework Matrices (if applicable)
6. A Complete Set of Exams since 1977 for Practice Testing

Example questions are located at the end of each topic. The homework questions are tailored directly to the Outline presented. Matrices are placed at the end of each Outline sub-topic within the homework section. The matrices are a “plug and play” method to help you work the homework questions. With accuracy and speed.

If you have questions you may use my e-mail address of max@maxtax.com, or you may feel free to call at 916.728.1040.

Be prepared to demonstrate an effort has been made. I am a resource but not the be-all or end-all. Questions ARE welcome, dialogue is well received. If find you find an error in the text; please feel free to point that out.

As the class grows, you will be given a list of student members so you can compare your thoughts with your peers.

While it appears that the course requirements are grueling, it is intended to prepare you for the best chance of success. While I cannot guarantee you will pass. I can tell you that this was the method I used.

Good Luck.

Mary Ann
